

ANNUAL ADDRESS OF 2026

THE KINGDOM OF ZATSUNEI

Office of the King

28th January, 2026

To the loyal people of the Kingdom of Zatsunei,

Today marks the first anniversary of the establishment of the Kingdom of Zatsunei, which was founded on the 28th of January 2025. I would like to thank everyone who has been with us so far, even though Zatsunei is still suffering from a lack of members. I hope to fix this soon as we reach out to more people.

When I founded the Zatsunei with Duxas, the idea was to create a nation that combined the characteristics of a clan with those of a modern state. However, I later scrapped this idea and decided to make Zatsunei an absolute monarchy, a system that I now plan to change with the help of my Government.

We have been looking pretty inactive on the surface, but a lot was done within the Government and regarding laws. We have been in the process of drafting a new and better constitution since summer of last year, and it is about to be given Royal Assent.

As we have very few members, many things could not happen, and Zatsunei appeared to be dead. However, I want to tell you that the Kingdom of Zatsunei is the first fictional nation that I have not given up on within a year. I haven't led many projects or nations before, but I am more committed to Zatsunei than to any other project, and I don't plan on giving up on this Nation.

As I mentioned previously, the enactment of the new Constitution is almost complete, and I will grant Royal Assent shortly. It may require a couple of minor amendments, but these should not delay the Royal Assent and promulgation process significantly.

His Royal Sovereignty, King Dezevlo of Zatsunei,

Office of the King of Zatsunei

I am looking forward to making significant improvements to the Government and state systems. Examples of this include establishing a functioning justice system, introducing more laws regarding foundational procedures and matters, and rewriting legislation such as the Criminal Code, which won't conform to our standards anymore.

The Kingdom of Zatsunei will adopt a new constitution establishing three distinct and functioning branches. For example, the House of Cabinet will no longer be both an executive and a legislative body. I strongly criticize the current Constitution, which does not work and needs to be replaced as soon as possible.

Zatsunei will also have a federal system, which is rather minimalist. However, there will be prefectures that are supposed to have their own leadership and government under the direction of the federal Government.

I want to make our Nation great by establishing a functioning system, rather than becoming another wasteland country that constantly declares wars and acts tough before dying out. People want to achieve something, not witness endless warfare that achieves nothing for either side.

The Kingdom of Zatsunei shall be a place characterized by peace and community, where we focus on building positive and meaningful things. At the same time, the military won't be abandoned, and there will be occasions where operations or deployments are necessary. I assure you that such actions or any declaration of war will only be made when they are truly necessary, justified, and with rightful conscience.

May you all be healthy and blessed.

Signed,

A stylized, cursive handwritten signature that reads "Dezevlo". The letters are fluid and connected, with a prominent 'D' and 'Z'.

His Royal Sovereignty, King Dezevlo of Zatsunei
